INTERNATIONAL SOCIETY of WILDLIFE ENDOCRINOLOGY

www.iswe-endo.org

The International Society of Wildlife Endocrinology is a non-profit organization that provides a forum for collaboration and information exchange to advance the science of wildlife endocrinology. Our members develop and apply innovative approaches to study wildlife health, reproduction, welfare, and conservation.

GOALS

- Promote the field of wildlife endocrinology throughout the broader scientific community by using endocrine techniques to generate knowledge of wildlife health, reproduction, welfare, and conservation.
- Facilitate and promote collaboration, information exchange, and innovation among wildlife endocrinologists and other researchers.
- Provide a platform for wildlife endocrinology training and career development opportunities.
- Establish best practices and standardization of adjunct methods for in situ and ex situ wildlife studies.
- Continue to develop and support an international and diverse ISWE membership to advance the field of wildlife endocrinology.

@iswe_endo

ISWE MEMBERSHIP BENEFITS

- Discounted registration to the biennial conference
- Exclusive access to the Wildlife Endocrinology Information Network (WEIN) database
- Networking opportunities via the private ISWE listserv
- Access to other online resources such as information about job postings, fellowships, internships and courses related to wildlife endocrinology
